ANNUAL MEETING OF STOCKHOLDERS
To be held May 10, 2018

SOLICITATION AND REVOCATION OF PROXIES

This Proxy Statement is provided in connection with the solicitation of proxies by and on behalf of the Board of Directors of Chembio Diagnostics, Inc., a Nevada corporation (referred to as the "Company" or "Chembio" or "we" or "us"), to be voted at the Annual Meeting of Stockholders to be held at 10:00 a.m. (local time) on May 10, 2018 at the office of Chembio, 3661 Horseblock Road, Medford, New York 11763, or at any adjournment or postponement of the Annual Meeting. We anticipate that this Proxy Statement and the accompanying form of Proxy will be first made available to stockholders on or about March 27, 2018.

In accordance with rules and regulations adopted by the SEC, we are furnishing proxy materials to our stockholders of record by (i) mailing a printed copy of the proxy materials, and (ii) providing Internet access to the proxy materials at <http://www.chembio.com/investors/proxy/>. Stockholders of record who receive a printed copy of proxy materials as well as stockholders of record who receive a Notice of Internet Availability of Proxy Materials each will be permitted to access our proxy materials on the Internet. In addition, stockholders of record who receive a Notice of Internet Availability of Proxy Materials can receive a printed copy of the proxy materials by requesting this information from the Company. The Notice of Internet Availability of Proxy Materials will instruct you as to how you may access and review all of the important information contained in the proxy materials. The Notice of Internet Availability of Proxy Materials also instructs you as to how you may submit your proxy on the Internet.

A stockholder giving a Proxy may revoke it at any time before it is exercised by delivering written notice of revocation to our Secretary prior to the start of the Annual Meeting, by substituting a new Proxy executed at a later date prior to the start of the Annual Meeting, or by requesting, in person at the Annual Meeting, that the Proxy be returned.

The solicitation of Proxies is to be made on the Internet and through mailings. However, following the initial solicitation, further solicitations may be made by telephone or oral communication with stockholders. Our officers, directors and employees may solicit Proxies, but these persons will not receive compensation for that solicitation other than their regular compensation as employees. Arrangements also will be made with brokerage houses and other custodians, nominees and fiduciaries to provide access to the solicitation materials to beneficial owners of the shares held of record by those persons. We may reimburse those persons for reasonable out-of-pocket expenses incurred by them in so doing. We will pay all expenses involved in preparing, assembling and mailing this Proxy Statement and the enclosed material.

VOTING SECURITIES

The close of business on March 14, 2018 has been fixed as the record date for the determination of holders of record of the Company's common stock, \$0.01 par value per share, entitled to notice of and to vote at the Annual Meeting. Each stockholder of record as of the close of business on the record date is entitled to one vote on each matter to be voted on at the Annual Meeting for each share of common stock held by that stockholder on the record date. On the record date, 14,162,702 shares of common stock were outstanding and eligible to be voted at the Annual Meeting. A majority of the issued and outstanding shares of common stock entitled to vote, represented either in person or by Proxy, constitutes a quorum at any meeting of the stockholders. If sufficient votes for approval of the matters to be considered at the Annual Meeting have not been received prior to the meeting date, we intend to postpone or adjourn the Annual Meeting in order to solicit additional votes. The form of proxy we are soliciting requests authority for the proxies, in their discretion, to vote the stockholders' shares with respect to a postponement or adjournment of the Annual Meeting. At any postponed or adjourned meeting, we will vote any Proxies received in the same manner described in this Proxy Statement with respect to the original meeting.

VOTING PROCEDURES

Votes at the Annual Meeting are counted by an inspector of election appointed by the Chair of the meeting. You can ensure that your shares are voted at the Annual Meeting by submitting your proxy card on the Internet, or by completing, signing, dating and returning the enclosed proxy form in the envelope provided, such that they are received no later than the day before the Annual Meeting. Abstentions by those present at the Annual Meeting are tabulated separately from affirmative and negative votes and do not constitute affirmative votes. If a stockholder submits his or her proxy card and withholds authority to vote for any or all of the items, the votes represented by the proxy card will be deemed to be present at the Annual Meeting for purposes of determining the presence of a quorum but will not be counted as affirmative votes. Rule 452 of the New York Stock Exchange (NYSE), which governs all brokers, permits brokers to vote their customers' stock held in street name on routine matters when the brokers have not received voting instructions from their customers. The NYSE does not, however, allow brokers to vote their customers' stock held in street name on non-routine matters unless they have received voting instructions from their customers. In such cases, the uninstructed shares for which the broker is unable to vote are called broker non-votes. The ratification of the independent auditor is a routine matter on which brokers may vote in their discretion on behalf of customers who have not provided voting instructions. While the advisory vote on the compensation of our Named Executive Officers and the advisory vote on the frequency of such votes on compensation are routine matters, brokers are not allowed to vote on these matters unless they have received voting instructions from their customers. The election of directors is a non-routine matter on which brokers are not allowed to vote unless they have received voting instructions from their customers. Shares in the names of brokers that are not voted on a particular matter are treated as not present with respect to that matter.

We will announce voting results at the meeting, and we will publish the final results within four business days following the meeting on a Current Report on Form 8-K that will be filed with the SEC.

FORWARD-LOOKING STATEMENTS

This Proxy Statement includes "forward-looking" statements within the meaning of Section 21E of the Securities Exchange Act of 1934. All statements other than statements of historical facts included in this Proxy Statement regarding our financial position, business strategy and plans and objectives of management for future operations and capital expenditures are forward-looking statements. Although we believe that the expectations reflected in the forward-looking statements and the assumptions upon which the forward-looking statements are based are reasonable, we can give no assurance that such expectations and assumptions will prove to have been correct.

Beneficial ownership is determined in accordance with the Rule 13d-3(a) of the Securities Exchange Act of 1934, as amended, and generally includes voting or investment power with respect to securities. Except as subject to community property laws, where applicable, the person named above has sole voting and investment power with respect to all shares of our common stock shown as beneficially owned by that person.

Each stockholder's beneficial ownership is calculated as the number of shares of common stock owned by that stockholder plus the number of shares of common stock into which any preferred stock, warrants, options or other convertible securities owned by that stockholder can be converted within 60 days. The beneficial ownership percent in the table is calculated with respect to the number of shares (14,162,702) of the Company's common stock outstanding as of March 14, 2018. With respect to each stockholder's beneficial ownership, the denominator is the sum of the number of common shares outstanding and the number, if any, of outstanding options included in that stockholder's beneficial ownership; and the numerator is the same as the stockholder's beneficial ownership of shares as determined according to the preceding sentence.

The term "Named Executive Officer" refers to our principal executive officer, our principal financial officer, our three most highly compensated executive officers other than the principal executive officer and principal financial officer who were serving as executive officers at the end of 2017, and one additional individual for whom disclosure would have been provided but for the fact that the individual was not serving as an executive officer of the Company at the end of 2017.

All directors, director nominees and executive officers must notify us of any proposed transaction involving us in which such person has a direct or indirect material interest. Such proposed transaction is then reviewed by either the Board as a whole or the Audit Committee, which determines whether to approve the transaction. After such review, the reviewing body approves the transaction only if it determines that the transaction is in, or not inconsistent with, the best interests of the Company and its stockholders.

Director Independence

Our common stock trades on the NASDAQ. Accordingly, we are subject to the corporate governance standards of NASDAQ, which require, among other things, that a majority of the board of directors be independent. We define an "independent" director in accordance with the NASDAQ Global Market's requirements for independent directors. Under this definition, we have determined that each of Katherine Davis, Gail Page, and Peter Kissinger currently qualifies as an independent director. If John Potthoff is elected to the Board of Directors, the Board of Directors believes Dr. Potthoff would qualify as an independent director. We do not list the "independent" definition we use on our internet website.

Section 16(a) Beneficial Ownership Reporting Compliance

Two directors attended the Company's annual meeting of stockholders in 2017.

Audit Committee

The Company's Audit Committee met four times in 2017. As of March 14, 2018, the members of the Audit Committee were Katherine L. Davis (Chair), Gail Page and Peter Kissinger. The Audit Committee oversees, reviews, acts on and reports to our Board of Directors on various auditing and accounting matters including the selection of our independent registered public accounting firm, the scope of our annual audits, fees to be paid to the independent registered public accounting firm, and the performance of our independent registered public accounting firm. The Compensation Committee does not currently delegate its authority to any other party, and does not currently engage any compensation consultants to determine the amount or form of executive and director compensation. Stockholder Recommendations To The Nominating And Governance Committee

There have been no changes in the past year to the procedures by which stockholders may recommend nominees for director to our Board. For a stockholder recommendation for a director to be considered for nomination by the Board at the next annual meeting of stockholders, the recommendations must be made by a stockholder of record entitled to vote. Stockholder nominations must be made by notice in writing, delivered or mailed by first class U.S. mail, postage prepaid, to the Secretary of the Company at the Company's principal business address, not less than 60 days nor more than 90 days prior to any meeting of the stockholders at which directors are to be elected. Leadership Structure of the Board

The Board has determined that separating the positions of CEO and Chairman is the best structure to fit the Company's current needs. It has been determined that this structure is preferable because this structure provides a greater role for the independent directors in the oversight of the Company and active participation of the independent directors in setting agendas and establishing priorities and procedures for the work of the Board. However, our Board has no fixed policy with respect to the separation of the offices of the Chairman and CEO. Our Board retains the discretion to make this determination on a case-by-case basis from time to time as it deems in the best interests of the Company and our stockholders at any given time.

The Chief Financial Officer reports directly to the Audit Committee at least quarterly to provide an update on management's efforts to manage risk. The Audit Committee also has oversight responsibility for financial risks. The Board of Directors has oversight responsibility for all other risks.

Diversity

The Board recognizes the importance of diversity in business experience, education, and professional skills in selecting nominees for director. The Board does not, however, have a formal policy concerning the consideration of diversity.

Audit Committee Report

This report shall not be deemed incorporated by reference by any general statement incorporating by reference this Proxy Statement into any filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent that we specifically incorporate this information by reference, and shall not otherwise be deemed filed under either of such Acts.

The Audit Committee oversees the Company's financial reporting process. Management has the primary responsibility for the financial statements and the reporting process, including the systems of internal controls. In fulfilling its oversight responsibilities, the Audit Committee reviewed and discussed with management the audited financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2017 and the unaudited financial statements included in the Quarterly Reports on Form 10-Q for the first three quarters of the fiscal year ended December 31, 2017.

The Committee discussed with the independent auditors, who are responsible for expressing an opinion on the conformity of audited financial statements with generally accepted accounting principles, the auditors' judgments as to the quality, not just the acceptability, of the Company's accounting principles and such other matters as are required to be discussed by the auditors with the Committee under Statement on Auditing Standard No. 61, as amended. In addition, the Committee discussed with the independent auditors the auditors' independence from management and the Company, including the matters in the written disclosures and the letter that the Committee received from the auditors that is required by the PCAOB independence standards. The Committee considered whether the auditors' providing services on behalf of the Company other than audit services is compatible with maintaining the auditors' independence.

The Committee discussed with the Company's independent auditors the overall scope and plans for their respective audits. The Committee meets with the independent auditors, with and without management present, to discuss the results of the auditors' examinations, their evaluations of the Company's internal controls, and the overall quality of the Company's financial reporting.

In reliance on the reviews and discussions referred to above, the Committee approved and recommended to the Board inclusion of the audited financial statements in the Annual Report on Form 10-K for the year ended December 31, 2017 for filing with the SEC.

Director Compensation

All non-employee directors are paid a \$25,000 annual fee in semi-annual payments. In addition, once every five years, on the date of the annual meeting of stockholders at which a director is elected or re-elected (every 5 years), that director receives stock options to acquire, subject to vesting as described below, 46,875 shares of the Company's common stock, with an exercise price equal to the market price on the date of the grant. Stock options to acquire 9,375 shares become exercisable on the date of the original grant, and options to acquire an additional 9,375 shares become exercisable on the date of each of the four succeeding anniversaries of the date of grant if and to the extent that the non-employee director is still a director on each such vesting date. These options grants also are described in note 2 below. The non-employee board chair is paid a monthly fee of \$4,167. The audit committee chair is paid an annual fee of \$2,500, paid semi-annually. In addition, the non-employee directors are paid \$1,000 for each board of directors' meeting attended, and paid \$500 for each telephonic board of directors meeting. The non-employee directors who are members of a committee of the board of directors are paid \$500 for each committee meeting attended, or \$750 for each committee meeting attended if that non-employee director is the committee chair. Directors also may be paid for serving on ad hoc committees of the Board.

Compensation Committee Interlocks and Insider Participation

No executive officer of the Company served as a member of the Board of any other public company during the year ended December 31, 2017. No member of the Compensation Committee served as an executive officer of any other public company during the year ended December 31, 2017. No interlocking relationship exists between the members of our Compensation Committee and the Board or compensation committee of any other company. As of March 14, 2018, the members of the Compensation Committee were Gail Page (Chair), Katherine Davis, and Dr. Peter Kissinger, each of whom is deemed by the Board of Directors to be independent.

CEO PAY RATIO DISCLOSURE

As required by the Dodd-Frank Wall Street Reform and Consumer Protection Act and rules of the Securities and Exchange Commission, we are providing the ratio of the total annual compensation of our CEO, John J. Sperzel III, to that of the median employee for 2017. The compensation for our CEO in 2017 was approximately 13 times the median pay of our employees.

Our CEO-to-median-employee pay ratio is calculated in accordance with what the SEC requires pursuant to Item 402(u) of Regulation S-K. We identified the median employee by examining the 2017 total cash compensation for all individuals, excluding our CEO, who

were employed by us on December 31, 2017, the last day of our payroll year. We included all employees, whether employed on a full-time, part-time, or seasonal basis. We did not make any assumptions, adjustments, or estimates with respect to total cash compensation, and we did not annualize the compensation for any full-time employees that were not employed by us for all of 2017. We believe the use of total cash compensation for all employees is a consistently applied compensation measure because we do not widely distribute annual equity awards to employees.

After identifying the median employee based on total cash compensation, we calculated annual total compensation for such employee using the same methodology we use for our named executive officers as set forth in the "Executive Compensation Table" above.

COMPENSATION DISCUSSION AND ANALYSIS

Executive Summary

Named Executive Officers. The following persons are referred to herein as the "Named Executive Officers" or "NEOs": John J. Sperzel III, who served as the Company's CEO during fiscal 2017, Neil A. Goldman, who became the Company's Chief Financial Officer on December 18, 2017, Javan Esfandiari, Sharon Klugewicz, Robert Passas, and Richard J. Larkin, who served as the Company's Chief Financial Officer in 2017 until his retirement on December 18, 2017.

Biographical information concerning each of our NEOs is included above in this Proxy Statement under "INFORMATION REGARDING THE BOARD OF DIRECTORS AND EXECUTIVE OFFICERS".

Compensation Philosophy and Objectives. Our policies regarding executive compensation programs are intended to balance motivating, rewarding and retaining executives with a competitive compensation package, and maximizing long-term stockholder value by linking compensation earned to both individual and Company performance. Compensation typically includes base salary, eligibility for annual cash bonuses and equity-based awards, retirement plan contributions, and other Company-sponsored benefits. A significant portion of each NEO's cash bonus and equity-based awards are dependent upon the Company's and/or the individual's achieving business and financial goals and realizing other performance objectives. Examples of Company performance metrics for which we measure achievement are net revenue, gross profit, profit margins, operating income, and net earnings, as well as achievements and other developments in the Company's business operations (such as product development, regulatory approval and/or marketing launch, new customer contracts, etc.). Annual performance targets for these metrics are set after consideration of the Company's strategic plan, historical results, and other factors. Our compensation programs are intended to reward individual contributions (for example, bringing a new product to market) and Company-wide achievement of performance metric targets (for example, overall revenue and net earnings).

The Compensation Committee is responsible for ongoing oversight of compliance with this compensation philosophy. The Compensation Committee strives to ensure that, in its judgment, the total compensation paid to the NEOs is fair, reasonable and competitive.

At our 2017 annual meeting of stockholders, we once again held an advisory, "say-on-pay" vote on the compensation of our NEOs. At that time, our stockholders approved the compensation of our NEOs, with approximately 95.6% of votes cast in favor of the prior year's compensation of our NEOs. Based on the strong stockholder support from the 2017 say-on-pay vote, the Compensation Committee concluded that stockholders were confirming their concurrence with the compensation paid to the NEOs and that the stockholders did not believe that the Compensation Committee needed to make substantial revisions to the compensation of the Company's NEOs.

Establishing Compensation Levels. Compensation levels for the NEOs are driven by market pay levels, the NEO's individual achievement and leadership performance, and overall Company performance. The Compensation Committee relies upon a combination of judgment (which is necessarily subjective) and guidelines (discussed above and elsewhere herein) in determining the amount and mix of compensation components for the NEOs. Although the Compensation Committee considers the input of our CEO as a crucial component of its compensation processes and decisions relating to NEO compensation, the Compensation Committee is not obligated to follow or otherwise adhere in any regard to those recommendations. The Company does not engage in strict numerical benchmarking in determining compensation for the NEOs.

Market Pay Levels and Role of the Compensation Consultant. Under its charter, the Compensation Committee is authorized in its discretion to engage outside advisors at the Company's expense. In fiscal 2017, the Compensation Committee did not engage an outside compensation consultant.

Pay levels for the NEOs generally are determined for each fiscal (calendar) year during the first four months of that year.

Most of our compensation decisions are made in the first few months of our fiscal year, after review of the Company's performance and the performance of our NEOs. We believe the compensation of all of our NEOs for 2017 was consistent with the Company's performance in 2017 as well as the criteria and objectives of our executive compensation policies.

Company Performance. We set Company performance metric targets that are considered in establishing the performance-based component of our compensation programs. Performance metric targets that are taken into consideration in our compensation programs include new product development, regulatory approval and/or product marketing launch, new customer contracts, revenues, earnings, and profit margins. These targets are set after consideration of industry averages and historical results. Also taken into consideration in evaluating Company performance in our compensation programs are the market penetration of our DPP® platform, the build-out of the related product menu, and the success of activities related to suitable acquisition targets.

Recovery of Prior Awards. Except as provided by applicable laws and regulations, we do not have a policy with respect to adjustment or recovery of awards or payments if relevant Company performance measures upon which previous awards were based are restated or otherwise adjusted in a manner that would reduce the size of such award or payment. Under those circumstances, we expect that the Compensation Committee and the Board would evaluate whether compensation adjustments were appropriate based upon the facts and circumstances surrounding the applicable restatement or adjustment.

Summary Compensation Sheets. In setting the NEOs' compensation, the Compensation Committee reviews all components of such compensation through the use of summary compensation sheets. These sheets provide the amount of total compensation paid or earned by each NEO based on his or her base salary, cash bonus, and equity-based awards. The summary compensation sheets provide the information that is reflected in the Executive Compensation Table, including the relationships of each element of compensation with each of the other elements. As a result, the summary compensation sheet allows the Compensation Committee to consider an executive's overall compensation rather than only one or two specific components of an executive's compensation. This helps the Compensation Committee to make compensation decisions and evaluate management recommendations based on a complete analysis of an executive's total compensation.

Below is a summary of practices that highlight certain features in our compensation programs:

What Chembio Does. Pays for performance. A significant portion of executive pay is not guaranteed, but rather is tied to the achievement of various performance metrics and to the discretion of the Board as to the individual's overall performance.

Sets NEO salary guidelines in an effort to be responsive to industry trends. Target compensation for NEOs is set after consideration of market data on compensation at other peer companies.

Balances short-term and long-term incentives. The incentive programs provide what the Compensation Committee considers to be an appropriate balance of annual and longer-term incentives.

Uses multiple performance metrics and considers risk assessment. The risk of the undue influence of a single metric is mitigated by utilizing multiple performance measures for annual incentive awards and multi-year vesting for long-term incentive awards. In addition, the Committee periodically conducts a compensation risk assessment to determine whether the compensation policies and practices, or components thereof, create risks that are reasonably likely to have a material adverse effect on the Company.

Caps award payouts. Amounts that can be earned under the Company's cash bonus are capped at a specified percentage of the NEO's salary.

Maintains an independent Compensation Committee consisting entirely of independent directors.

Elements of Compensation Packages. Chembio's executive compensation and benefits packages consist of base salary, cash bonuses, long-term equity incentive awards, Company-sponsored benefit and retirement plans, and (for certain NEOs with specific provisions in an employment contract) change-in-control severance benefits. Each of these components has a certain risk profile concerning the Committee's assessment of the risk that the component would have an adverse effect on the interests of the Company's stockholders.

Element	Form of Compensation	Purpose	Risk Profile
<i>Base Salaries</i>	Cash	Provide competitive, fixed compensation to attract and retain exceptional executive talent	Low to moderate
<i>Annual Cash Bonuses</i>	Cash	Provide a direct financial incentive to achieve corporate and individual operating goals	Moderate to high
<i>Long-Term Equity Incentives</i>	Stock options	Encourage NEOs to build and maintain a long-term equity ownership position in Chembio so that their interests are aligned with the interests of our stockholders	High
<i>Health, Retirement and Other Benefits</i>	Eligibility to participate in benefit plans generally available to our employees, including retirement plan contributions, and premiums paid on disability and life insurance policies	Benefit plans are part of a broad-based employee benefits program providing competitive benefits to our NEOs	Low
<i>Change-in-Control Severance Benefits</i>	Cash and continuation of certain benefits	For certain eligible NEOs with specific provisions in an employment contract, encourage these eligible NEOs to maximize value for stockholders in the event that the Company becomes subject to a change-in-control transaction	Moderate to high

The Compensation Committee has reviewed the risk profile of the components of the Company's executive compensation program, including the performance objectives and target levels used in connection with incentive awards, and has considered the risks that an NEO might be incentivized to take with respect to such components. When establishing the mix among these components, the Compensation Committee is careful not to encourage excessive risk taking. Specifically, the performance objectives contained in the Company's executive compensation programs have been balanced between annual and long-term incentive compensation to ensure that both components are aligned and consistent with our long-term business plan and that our overall mix of equity-based awards has been allocated to promote an appropriate combination of incentive and retention objectives. As a result, the Compensation Committee believes that the Company's executive compensation program does not incentivize the NEOs to engage in business activities or other behavior that would threaten the value of the Company or the investments of its stockholders.

The Compensation Committee continues to monitor and evaluate on an on-going basis the mix of compensation, especially equity compensation, awarded to the NEOs, and the extent to which such compensation aligns the interests of the NEOs with those of the Company's stockholders. In connection with this practice, the Compensation Committee has, from time to time, reconsidered the structure of the Company's executive compensation program and the relative weighting of various compensation elements.

Interplay of Compensation Elements. We believe that each element of our compensation program plays a substantial role in maximizing long-term value for our stockholders and employees because of the significant emphasis on pay-for-performance principles.

We strive to achieve an appropriate mix between equity incentive awards and cash payments in order to meet our objectives. Our mix of compensation elements is designed to reward recent results and motivate long-term performance through a combination of cash and equity-based awards. We believe the most important indicator of whether our compensation objectives are being met is our ability to motivate our NEOs to deliver superior performance and retain them to continue their careers with Chembio on a cost-effective basis.

Base Salary. The Company pays salaries that are designed to attract, motivate and retain experienced executives who will drive superior Company performance and maintain long-term stockholder value. The Compensation Committee considers recommendations from the CEO and approves annual base salaries that are commensurate with each NEO's responsibilities and performance, as well as

Company performance in the prior fiscal year, which are competitive with similar positions locally and in the industry.

Cash Bonuses. The Compensation Committee believes that employees should be rewarded based on Company results and individual performance. The Compensation Committee awards cash bonuses contingent upon both Company and individual performance. Cash bonuses, if earned, are paid in the first quarter of each fiscal year, for the prior year's performance.

Long-Term Incentive Awards. The Compensation Committee believes that equity-based compensation encourages employees to commit to the long-term goals of the Company. This ensures that the Company's NEOs have a stake in the long-term creation of stockholder value. A significant portion of the awards is performance-based, meaning the NEOs' ability to vest in that portion of awards is contingent upon the Company achieving a minimum level of net earnings.

Although Chembio does not have a written policy regarding the timing or practices related to granting equity awards, neither Chembio nor the Compensation Committee engages in spring-loading, back-dating or bullet-dodging practices. At any time that the Compensation Committee determines to grant stock options, those options are granted at the closing market price on the date of grant.

Company-Sponsored Benefit and Retirement Plans. NEOs participate in the Company's benefit and retirement plans on the same basis as other Company employees. The core benefit package includes health, short and long-term disability, and group term life insurance. Chembio generally provides retirement benefits to executives through its 401K Plan. The Company also pays a matching contribution to the Company's 401(k) Plan for all employees. This matching contribution is equal to a maximum of two percent of the employee's compensation.

Other Personal Benefits. One of the NEOs receives an auto allowance that is paid by the Company, the costs of which are included in the All Other Compensation table on page 15. The Company believes payment of this allowance to this one NEO is reasonable given the nature of NEO's the position and is consistent with the Company's overall executive compensation philosophy.

2017 Business Overview.

- From fiscal 2016 to fiscal 2017, total cash compensation for Mr. Sperzel increased 0.8%. With respect to two other NEOs, there was a change in cash compensation that varied from -4.3% to 1.3%. The change in compensation for one of these NEOs included an increase in compensation received while serving as acting CEO of the Company from May 31, 2017 to October 2, 2017. The range of changes described above does not include: one NEO who retired in December 2017 and did not receive all possible compensation for 2017; one NEO who was hired in October 2016 and received partial compensation for 2016; and one NEO that was hired in December 2017.
- Our total revenue for 2017 was \$24.0 million, an increase of 34.4%, compared to 2016 total revenue. Net loss for 2017 was \$6.4 million, a decrease of 52.3% compared to 2016 net loss. Additionally, operating loss for 2017 decreased 14.4%.
- In March 2017, a number of employees, including certain NEOs, were granted cash bonuses. See the "Executive Compensation Table" and "Outstanding Equity Awards Table" on pages 15 and 18, respectively, for details.
- Our financial results met certain of the minimum threshold targets in our executive compensation plan.
- Based on our financial results in fiscal 2017 and the individual evaluations of the NEOs by the Compensation Committee, our NEOs received merit increases in their base salaries for 2018. Base salaries for all Chembio employees below the executive level increased on average by approximately 3.6% effective between January 1, 2018 and April 1, 2018.

2018 Actions.

NEO salaries were increased an average of 3% for 2018.

In March 2018, the Compensation Committee approved cash bonuses for the following NEOs: Mr. Sperzel, Mr. Esfandiari, Ms. Klugewicz, and Mr. Passas. Also in March 2018, the Compensation Committee approved cash bonuses for three other officers.

Management and the Compensation Committee have intended that the earnings thresholds should be set at meaningful rates so that management must be diligent, focused and effective in order to achieve these goals. In other words, the Company and management believed at the time of the establishment of these thresholds that they would be challenging to achieve and would require substantial efforts from management. To this end, the Compensation Committee tends to set the thresholds consistent with the earnings range requiring that the low end of guidance is achieved before bonuses are paid.

Tax Deductibility of Pay

Section 162(m) of the Internal Revenue Code contains compensation deduction limitations for certain highly compensated employees. One exception to this limitation is for performance-based compensation that is approved by, among other things, a committee of "outside directors" (as defined under IRS treasury regulations). The Committee believes that all compensation paid to the NEOs for fiscal year 2017 is properly deductible under Section 162(m), but no assurance can be made in this regard.

ITEM 3. ADVISORY VOTE ON COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS

We are providing our stockholders with an opportunity to vote to approve, on an advisory, non-binding basis, the compensation of our "Named Executive Officers". As stated elsewhere in this Proxy Statement our "Named Executive Officers" are John J. Sperzel III, Chief Executive Officer, Neil A. Goldman, Chief Financial Officer and Executive Vice President, Javan Esfandiari, Chief Scientific &

Technology Officer and Executive Vice President, Sharon Klugewicz, President, Americas Region, Robert Passas, President EMEA and APAC Regions, and Richard J. Larkin, the former Chief Financial Officer and Executive Vice President. This proposal, which is often referred to as a "say-on-pay" proposal, is required by the Dodd-Frank Wall Street Reform And Consumer Protection Act. The Board of Directors is providing stockholders with the opportunity to cast an advisory vote on the compensation of our "Named Executive Officers." This proposal gives you, as a stockholder, the opportunity to endorse or not endorse executive compensation programs and policies and the compensation paid to our Named Executive Officers as disclosed in this Proxy Statement

The Compensation Committee's compensation objectives are to attract and retain highly qualified individuals with a demonstrated record of achievement, reward past performance, provide incentives for future performance, and align the interests of the executive officers with the interests of our stockholders. The Board is asking stockholders to support this proposal based on the disclosure set forth in these sections of this Proxy Statement, which, among other things, demonstrates our commitment to ensuring that executive compensation is aligned with our corporate strategies and business objectives and is competitive with those of other companies in our industry.

The Board is asking stockholders to cast a non-binding, advisory vote "FOR" the compensation paid to our Named Executive Officers as disclosed in this Proxy Statement pursuant to the compensation disclosure rules of the SEC, including the compensation tables and accompanying narrative disclosure under the heading "Executive Compensation" included in this Proxy Statement. Accordingly, we are asking our stockholders to approve the following advisory resolution at our 2018 Annual Meeting:

RESOLVED, that the Company's stockholders, hereby approve, on an advisory basis, the compensation paid for 2017 to the Company's "Named Executive Officers" as set forth pursuant to Item 402 of Regulation S-K, including the compensation tables and accompanying narrative disclosure under the heading "Executive Compensation", all as contained in the Company's 2018 Proxy Statement for the 2018 Annual Meeting of Stockholders.

Although the say-on-pay vote we are asking you to cast is non-binding, and the results of this vote will not require the Board or the Compensation Committee to take any action regarding executive compensation, the Board and the Compensation Committee value the views of our stockholders and carefully will consider the outcome of the vote when determining future compensation arrangements for our Named Executive Officers.

Board Recommendation

The Board of Directors recommends that stockholders vote "FOR" the compensation paid to our Named Executive Officers.

Comments Concerning Advisory Vote on Frequency Of Stockholder Say-On-Pay Voting

In accordance with Section 14A of the Securities Exchange Act of 1934, the Board may ask stockholders to cast a non-binding, advisory vote on how frequently we should have stockholder say-on-pay votes. We are required to hold this advisory vote at least once every six years, although our Board can determine to hold such a vote sooner. When that occurs, stockholders may vote to hold say-on-pay votes every one, two or three years. At the 2013 Annual Meeting Of Stockholders, the stockholders voted to have a stockholder say-on-pay vote every year. The Board has determined not to hold an advisory vote on the frequency of stockholder say-on-pay voting this year, and thereby continue with adherence with the stockholders' vote at the 2013 Annual Meeting Of Stockholders.

ANNUAL REPORT TO STOCKHOLDERS

Included with this Proxy Statement is the Company's Annual Report on Form 10-K for the year ended December 31, 2017.

RESOLUTIONS PROPOSED BY INDIVIDUAL STOCKHOLDERS

Under Rule 14a-8(e) of the Securities Exchange Act of 1934, in order to be considered for inclusion in the Proxy Statement and form of proxy relating to our next annual meeting of stockholders following the end of our 2018 fiscal year, proposals by individual stockholders must be received by us no later than November 27, 2018, which is 120 calendar days prior to the one-year anniversary of the March 27, 2018 date of the initial release to our stockholders of this Proxy Statement for the 2018 Annual Meeting. However, if the date of our next annual meeting of stockholders is changed by more than 30 days from the date of this year's Annual Meeting, then the deadline will be a reasonable time before we begin to print and send our proxy materials for the next annual meeting of stockholders.

In addition, under Rule 14a-4(c)(1) of the Securities Exchange Act of 1934, the proxy solicited by the Board of Directors for the next annual meeting of stockholders following the end of our 2018 fiscal year will confer discretionary authority on any stockholder proposal presented at that meeting unless we are provided with notice of that proposal no later than February 10, 2019, which is 45 days prior to the one-year anniversary of the March 27, 2018 date of the initial release to our stockholders of this Proxy Statement for

the 2018 Annual Meeting.

OTHER BUSINESS

The Board of Directors is not aware of any other matters that are to be presented at the Annual Meeting, and it has not been advised that any other person will present any other matters for consideration at the meeting. Nevertheless, if other matters should properly come before the Annual Meeting, the stockholders present, or the persons, if any, authorized by a valid proxy to vote on their behalf, shall vote on such matters in accordance with their judgment.
