NOTES TO FINANCIAL STATEMENTS

March 31, 2003

1. ORGANIZATION

Trading Solutions.com Inc. was incorporated under the laws of the State of Nevada on May 14, 1999 with authorized common stock of 20,000,000 shares at \$.01 par value. The Company was established to provide on-line investing educational services. During 2002 the company abandoned that activity and has since remained inactive.

In August 2001, the Company acquired all of the outstanding stock of Springland Beverages, Inc., which was in the business of developing the bottled water and related beverage market. The only activities of Springland Beverages, Inc. has been the acquisition of an option to purchase land and the registration of trademarks in the United States and Canada. Both of which have subsequently expired.

During March 2003 the Company settled all its liabilities, in connection with the transfer of its interest in Springland Beverages, Inc., to a former officer of the Company.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Accounting Methods

The Company recognizes income and expenses based on the accrual method of accounting.

Dividend Policy

The Company has not yet adopted a policy regarding payment of dividends.

Income Taxes

On March 31, 2003, the Company had a net operating loss available for carry forward of \$368,182. The tax benefit of approximately \$110,455 from the loss carry forward has been fully offset by a valuation reserve because the use of the future tax benefit is doubtful since the Company has no operations. The net operating loss will expire starting in 2020 through 2022.

Basic and Diluted Net Income (Loss) Per Share

Basic net income (loss) per share amounts are computed based on the weighted average number of shares actually outstanding. Diluted net income (loss) per share amounts are computed using the weighted average number of common shares and common equivalent shares outstanding as if shares had been issued on the exercise of common share rights unless the exercise becomes antidilutive and then only the basic per share amounts are shown in the report.

NOTES TO FINANCIAL STATEMENTS

March 31, 2003

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Statement of Cash Flows

For the purposes of the statement of cash flows, the Company considers all highly liquid investments with a maturity of three months or less to be cash equivalents.

Financial and Concentrations Risk

The Company does not have any concentration or related financial credit risk.

Revenue Recognition

Revenue is recognized on the sale and delivery of a product or the completion of a service provided.

Advertising and Market Development

The company expenses advertising and market development costs as incurred.

Estimates and Assumptions

Management uses estimates and assumptions in preparing financial statements in accordance with accounting principles generally accepted in the United States of America. Those estimates and assumptions affect the reported amounts of the assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could vary from the estimates that were assumed in preparing these financial statements.

Financial Instruments

The carrying amounts of financial instruments are considered by management to be their estimated fair values.

Recent Accounting Pronouncements

The Company does not expect that the adoption of other recent accounting pronouncements will have a material impact on its financial statements.

3. SIGNIFICANT TRANSACTIONS WITH RELATED PARTIES

An officer-director of the Company, has acquired 81% of the common capital stock issued and has made capital contributions by the payment of its liabilities.

NOTES TO FINANCIAL STATEMENTS

5. GOING CONCERN

The Company intends to acquire interests in various business opportunities which, in the opinion of management, will provide a profit to the Company, however there is insufficient working capital for any future planned activity, and to service any future debt, which raises substantial doubt about its ability to continue as a going concern. Continuation of the Company as a going concern is dependent upon obtaining additional working capital and the management of the Company has developed a strategy, which it believes will accomplish this objective through advances from officers, additional equity funding, and long term debt which will enable the Company to conduct operations for the coming year.

ITEM 2. PLAN OF OPERATIONS

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION OR PLAN OF OPERATION

Plan of Operation

During the quarter ended March 31, 2003, the Company operated through its wholly-owned subsidiary, Springland Beverages, Inc., in Ontario, Canada. Springland Beverages, Inc. has not been able to implement its business plan and therefore has failed to achieve profitable operations. On March 28, 2003, the Company sold the Subsidiary back to its president, Ralph Moyal, who resigned from Trading Solutions.com at that time.

The Company is now seeking to acquire assets or shares of an entity actively engaged in business which generates revenues. The Company has no particular acquisitions in mind and has not entered into any negotiations regarding such an acquisition. None of the Company's officers, directors, promoters or affiliates have engaged in any substantive contact or discussions with any representative of any other company regarding the possibility of an acquisition or merger between the Company and such other company as of the date of this quarterly report. The Board of Directors intends to obtain certain assurances of value of the target entity's assets prior to consummating such a transaction. Any business combination or transaction will likely result in a significant issuance of shares and substantial dilution to present stockholders of the Company.

The Company has, and will continue to have, no capital with which to provide the owners of business opportunities with any significant cash or other assets. However, management believes the Company will be able to offer owners of acquisition candidates the opportunity to acquire a controlling ownership interest in a publicly registered company without incurring the cost and time required to conduct an initial public offering. The owners of the business opportunities will, however, incur significant legal and accounting costs in connection with the acquisition of a business opportunity, including the costs of preparing Form 8-K's, 10-KSB's, 10-QSB's, agreements and related reports and documents.

Liquidity and Capital Resources

The Company remains in the development stage and, since inception, has experienced no significant change in liquidity or capital resources or stockholder's equity. The Company's balance sheet as of March 31, 2003, reflects a total asset value of \$0.00. The Company has no cash or line of credit, other than that which present management may agree to extend to or invest in the Company, nor does it expect to have one before a merger is effected. The Company will carry out its plan of business as discussed above. The Company cannot predict to what extent its liquidity and capital resources will be diminished prior to the consummation of a business combination or whether its capital will be further depleted by the operating losses (if any) of the business entity which the Company may eventually acquire.

Results of Operations

During the period from August 16, 2001 through March 31, 2003, the Company intended to engage in the marketing of natural spring water and water related beverages. The intended business plan was not realized and the Company's wholly-owned subsidiary, Springland Beverages, Inc., was sold to its president, Ralph Moyal on March 28, 2003 in exchange for services rendered. No revenues were received by the Company during this period.

For the current fiscal year, the Company anticipates incurring a loss as a result of legal and accounting expenses, and expenses associated with locating and evaluating acquisition candidates. The Company anticipates that until a business combination is completed with an acquisition candidate, it will not generate revenues, and may continue to operate at a loss after completing a business combination, depending upon the performance of the acquired business.

Need for Additional Financing

Based upon current management's willingness to extend credit to the Company and/or invest in the Company until a business combination is completed, the Company believes that its existing capital will be sufficient to meet the Company's cash needs required for the costs of compliance with the continuing reporting requirements of the Securities Exchange Act of 1934, as amended, and for the costs of accomplishing its goal of completing a business combination, for an indefinite period of time. Accordingly, in the event the Company is able to complete a business combination during this period, it anticipates that its existing capital will be sufficient to allow it to accomplish the goal of completing a business combination. There is no assurance, however, that the available funds will ultimately prove to be adequate to allow it to complete a business combination, and once a business combination is completed, the Company's needs for additional financing are

likely to increase substantially. In addition, as current management is under no obligation to continue to extend credit to the Company and/or invest in the Company, there is no assurance that such credit or investment will continue or that it will continue to be sufficient for future periods.

ITEM 3. CONTROLS AND PROCEDURES

Pete Falvo (the Company's principal executive officer and principal financial and accounting officer) has concluded, based on his evaluation as of a date within 90 days prior to the date of the filing of this report, that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed in the reports filed or submitted by us under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and include controls and procedures designed to ensure that information required to be disclosed in such reports is accumulated and communicated to the Company's management as appropriate to allow timely decisions regarding required disclosure.

There were no significant changes in the Company's internal controls or in other factors that could significantly affect these controls subsequent to the date of such evaluation.
