## PART I

### ITEM 1. DESCRIPTION OF BUSINESS

#### FORWARD-LOOKING STATEMENT NOTICE

When used in this report, the words "may," "will," "expect," "anticipate," "continue," "estimate," "project," "intend," and similar expressions are intended to identify forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 regarding events, conditions, and financial trends that may affect the Company's future plans of operations, business strategy, operating results, and financial position. Persons reviewing this report are cautioned that any forward-looking statements are not guarantees of future performance and are subject to risks and uncertainties and that actual results may differ materially from those included within the forward-looking statements as a result of various factors.

#### GENERAL

Trading Solutions.com, Inc. was incorporated on May 14, 1999 in the state of Nevada. The Company originally organized to develop a trading school designed to educate people interested in online investing. Trading Solutions offered courses for beginners as well as experienced traders, consisting of theory sessions linked closely with practical hands-on training. The Company offered individual training, small group sessions and seminars focusing on online trading and various computer-related subjects.

The Company was not successful with its online trading school and on August 18, 2001, the Company entered into an exchange agreement with Springland Beverages, Inc., an Ontario, Canada Corporation. Pursuant to the agreement, the Company exchanged 15,542,500 shares of common stock for all of the issued and outstanding shares of Springland Beverages, Inc., making Springland a wholly owned subsidiary of Trading Solutions. Concurrent with the agreement, there was a change in control of the Company and the Company changed its business plan to focus on developing and marketing soft drinks.

Trading Solutions currently operates through Springland Beverages, Inc., our wholly owned subsidiary. We intend to produce, market and distribute natural spring water beverages, initially in the United States and eventually internationally.

#### OUR BUSINESS

We are in the business of bottling and marketing natural spring water beverages for distribution in the United States. According to the most recent statistics from Beverage Marketing Corporation, bottled water represents the fastest growing segment of the beverage industry and the United States is the largest market. From 1992 to 2000, annual bottled water consumption in the United States nearly doubled from 34.1 liters per person to 61.9 liters per person. Total consumption of bottled water in the United States in 2000 reached five billion gallons, an increase of 8.3% over 1999. Wholesale industry sales of bottled water in 2000 climbed to \$5.7 billion, an increase of 9.3% over the previous year.

We do not currently own the rights to any water source for our products, however, we have identified a potential source of spring water. The water source is located in Ontario, Canada on approximately 62 acres with two major springs. These springs appear to meet the United States Food and Drug Administration's definition of natural spring water as evidenced by a reporting letter from the Ontario Ministry of the Environment and other studies conducted on the lands. The Ontario Ministry of the Environment has issued permits allowing us to draw up to 150,000 imperial gallons of water per day from the

springs for 300 days on an annual basis. The permits were originally issued in 1984 and were subsequently renewed in 1993 through 2003. We hope to renew the permits before they expire, and are currently exploring the possibility of raising capital to purchase the land containing the springs.

#### OUR TRADEMARKS

We have registered the Springland and Aurora trademarks in both the United States and Canada. We are currently seeking to acquire an operating beverage plant to package our spring water products for distribution under the Springland trademark.

#### COMPETITION

Beverage Marketing Corporation reports that the leading producer and distributor of bottled water in the United States is Nestle Waters, the distributor of Perrier and Calistoga mineral waters. Nestle holds approximately 30% of the bottled water market. Other leading competitors include Danone, the distributor of Evian mineral water with 15%, Suntory with 9% and Crystal Geyser with 3.2%. The leading soft drink producers, Pepsi and Coca-Cola, control approximately 8% and 3% of the bottled water market respectively. The remaining 33% of the market is comprised of numerous independent producers and distributors of bottled water with less than a 2% market share. Once we secure a source of water and production facilities, we hope to establish our trademarks and establish a foothold among these smaller producers and distributors.

#### EMPLOYEES

Our president, Mr. Ralph Moyal is our only employee. We do not anticipate hiring additional employees until we acquire an operating plant and begin packaging and marketing our products. At such time, additional employees will be hired as necessary. At the date of this report, we have not provided any salary or other remuneration to Mr. Moyal.

#### ITEM 2. DESCRIPTION OF PROPERTY

We rent office space from our president under an informal agreement for approximately \$160 per month. Rental expense for 2002 was \$1,905. We anticipate that this arrangement will continue until such time as our operations demand additional space.

#### ITEM 3. LEGAL PROCEEDINGS

Management is not aware of any other current or pending legal proceedings involving Trading Solutions or our officers and directors.

#### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITIES HOLDERS

No matters were submitted to a vote of security holders during the period covered by this report.

### PART II

Holders of the common stock have no preemptive rights and no right to convert their common stock into any other securities. There are no redemption or sinking fund provisions applicable to the common stock.

The Company has not paid, nor declared, any dividends since its inception and does not intend to declare any such dividends in the foreseeable future. ## ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

### RESULTS OF OPERATIONS

We have located a tract of land with two springs that could potentially provide a source of spring water for our products. We formerly held an option to purchase the land, however, the option expired this year before we could generate sufficient funds to exercise the option. We are currently exploring alternate means of purchasing the land or gaining access to the springs. If we can secure legal access to the springs, the Ontario Ministry of the Environment has issued permits allowing us to draw up to 150,000 imperial gallons of water per day from the springs for 300 days per year. We hope to renew the permits before they expire in 2003.

We have registered the Springland and Aurora trademarks in the United States and Canada, and continue to seek an operating beverage plant to package our spring water products. We may also explore the possibility of acquiring other soft drink companies should a suitable opportunity arise. At the present time, we have not identified any potential companies for acquisition and no agreements or understandings to that effect are currently pending.

Following the acquisition of a plant and source of spring water, we plan to initiate an aggressive marketing campaign to establish the Springland name. We intend to develop brand identification by increasing our exposure within the bottled water industry by developing sales literature, demonstration materials and direct response promotions. In addition, we intend to use direct mail, fax and telemarketing campaigns for sales generation. We recognize that advertising and promotion must be done aggressively in order to accomplish our goals.

YEAR ENDED SEPTEMBER 30, 2002 AND SIX MONTHS ENDED SEPTEMBER 30, 2001

Total loss from continuing operations for the year ended September 30, 2002 were \$47,651 with expenses consisting of \$47,016 in operating expenses and \$635 in interest expense. The largest portion of expenses consisted of professional fees associated with the acquisition of our subsidiary in August of 2001 as well as general administrative expenses, auditing and legal fees relating to the our public reporting requirements. These professional expenses were \$33,811, constituting approximately 72% of all operating expenses. General business expenses consisted of \$1,905 in office rent, \$1,600 in taxes and licensing fees and \$1,079 in telephone costs. We also had expenses relating to our proposed products consisting of \$765 in advertising, amortization expense of \$367 and \$6,125 in travel and entertainment expenses associated with promoting and developing a market for our trademarks.

There is no comparable data for the year ended September 30, 2001 as we changed our fiscal year from March 31 to September 30 on August 28, 2001 when we acquired our subsidiary. Operating expenses for the six months ended September 30, 2001 consisted of \$18,734 in professional fees for auditing, legal costs and consulting fees. We also recorded a loss of \$63,407 in 2001 due to the expiration of our option to purchase the land where our target springs are located.

As a result of the foregoing factors, we have realized net losses after adjusting for foreign currency exchange of \$46,271 for the year ended September 30, 2002, and \$83,989 for the six months ended September 30, 2001.

#### LIQUIDITY AND CAPITAL RESOURCES

At September 30, 2002 our total current assets consisted of \$4,012 in trademarks. Total assets at September 30, 2001 consisted of \$1,745 in cash. Current liabilities at September 30, 2002 are \$110,181 consisting of \$29,751 in accounts payable, \$11,290 in accrued expenses, \$14,724 in a bank overdraft loan, \$49,916 in advances due to our president and \$4,500 relating to our discontinued activities. Current liabilities at September 30, 2001 were \$61,643 consisting of \$9,251 in accounts payable, \$6,733 in accrued expenses, \$40,359 in advances from our president and \$5,300 in liabilities from discontinued operations.

Our auditors have expressed substantial doubt as to our ability to continue as a going concern. Since inception on May 14, 1999, we have not generated any revenue and have cumulative net losses of \$369,702 after adjusting for income tax and foreign currency exchange values. Our need for capital will change dramatically if we locate an operating plant to purchase or secure a source of spring water. In the past, we have relied on advances from officers and

shareholders to cover our operating costs. Management anticipates that we will receive sufficient advances from our current president to meet our needs through the next 12 months. However, there can be no assurances to that effect. Should we require additional capital, we may seek additional advances from officers or shareholders, sell equity of the Company or find other forms of debt financing.

Our current operating plan is to handle the administrative and reporting requirements of a public company, attempt to pay our debts, and to continue searching for a bottling plant and a reliable source of spring water.

INDEPENDENT AUDITORS' REPORT

-----

To the Board of Directors  
Trading Solutions.com Incorporated  
Toronto, Ontario Canada

We have audited the accompanying consolidated balance sheets of Trading Solutions.com Incorporated and Subsidiary (A Development Stage Enterprise) as of September 30, 2002 and 2001 and the related consolidated statement of income, stockholders' equity, and cash flows for the year ended September 30, 2002 and for the six months ended September 30, 2001. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessment of the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion the financial statements referred to above present fairly, in all material respects, the financial position of Trading Solutions.com Incorporated and Subsidiary as of September 30, 2002 and 2001 and the results of its operations and its cash flows for the year ended September 30, 2002 and for the six months ended September 30, 2001 in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. As discussed in Note 12 to the financial statements, the Company has incurred net losses from operations and has received minimal revenue, which raises substantial doubt about its ability to continue as a going concern. The financial statements do not include any adjustment that might result from the outcome of this uncertainty.

Respectfully,

/s/Freedman & Goldberg

Notes to Consolidated Financial Statements  
September 30, 2002 and 2001

H. In accordance with SFAS No. 121, the Company reviews its long-lived assets, including property and equipment, goodwill and other identifiable intangibles for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not be fully recoverable. To determine recoverability of its long-lived assets, the Company evaluates the probability that future undiscounted net cash flows, without interest charges, will be less than the carrying amount of the assets. Impairment is measured at fair value. The Company had no impairment of assets during the periods ended September 30, 2002 and 2001.

I. Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

J. Income Taxes - The Company accounts for income taxes under the provisions of SFAS No. 109, "Accounting for Income Taxes," which requires recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the Company's consolidated financial statements or tax returns. Under this method, deferred tax assets and liabilities are determined based on the differences between the financial accounting and tax basis of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse.

K. Foreign Currency Translation - The income statements of foreign operations are translated into U.S. dollars at rates of exchange in effect each month. The balance sheets of these operations are translated at period-end exchange rates, and the differences from historical exchange rates are reflected in stockholders' equity as unrealized currency translation adjustments. During the periods ended September 30, 2002 and 2001, there were no unrealized currency translation adjustments.

L. Change in Fiscal Year - On August 28, 2001, the Board of Directors determined it is in the Company's best interest to change its fiscal year to be the same as its wholly owned subsidiary. Therefore, the Company has changed its fiscal year from March 31 to September 30.
