Other than elections to office, none of the persons who have been directors or officers of the Company at any time since the beginning of the last fiscal year, nor any associate of any such person, has been a director or officer of the Company.

Our quarterly and annual reports on Form 10-QSB and Form 10-KSB, respectively have been timely filed with the SEC and may be viewed on the SEC's Web site at [www.sec.gov](http://www.sec.gov) in the Edgar database.

DISSENTER'S RIGHTS OF APPRAISAL

Nevada Revised Statutes do not provide for dissenter's rights of appraisal in connection with the actions being taken by us.

Election of Directors  
(Action No. 1)

Our articles of incorporation and bylaws authorize a board of directors comprised of a number of not less than one. Our stockholders have elected Mark L. Baum to the board of directors.

Set forth below for each person who has been elected director, based on information supplied by him, are his name, age as of the date of this information statement, any presently held positions and the number of shares of common stock owned by him.

Nominees For Election As Directors

Mark L. Baum, 31, has more than 10 years experience in creating, financing and growing development stage enterprises in a variety of industries. Mr. Baum has participated in numerous public financings and has been a director of several companies.

Reverse Stock Split  
(Action No. 2)

Our board of directors adopted resolutions and a majority of our stockholders approved such resolutions providing for a recapitalization pursuant to which the issued and outstanding shares of common stock were split resulting in as few as 60,245 shares of common stock being issued and outstanding after the recapitalization.

Reasons for the Reverse Split

Our management believes that the reverse split is in the best interest of the Company because it will reduce or diminish the perceived depressive effect of the Company having a large number of outstanding shares.

In addition, the reverse split will make available a substantial number of additional authorized, but unissued shares of common stock which will provide increased flexibility in structuring possible financings.

Furthermore, it is ultimately our goal to have our securities listed on the NASDAQ or on a national stock exchange. Our management believes that such listings can more readily be accomplished with a smaller number of outstanding shares.

The rights of existing stockholders will not be altered and no stockholder will be eliminated as a result of the reverse split. Fractional shares will not be issued and will be rounded down to the nearest whole share.

It is possible that stockholders holding less than 100 shares of our common stock may have larger commissions charged to sell such shares and may even result in a larger commission than the value of the shares sold.
